IPF Industry

BUSINESS OVERVIEW 2026

Consumables for plasma, laser and oxy-fuel cutting

A family business from the Czech Republic, with 30 years in cutting consumables.

ABOUT US

A family business with 30 years in cutting consumables

Head office and facilities in Mladá Boleslav, Czech Republic.

1996

Our founder starts in plasma cutting consumables.

2023

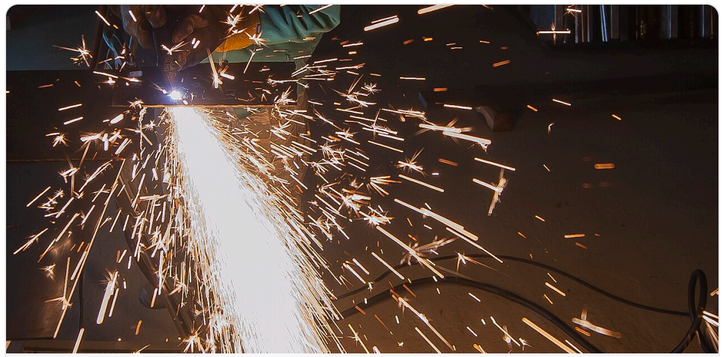

IPF Industry is founded in the Czech Republic.

1,300+

Parts listed on our website, each with the systems it fits.

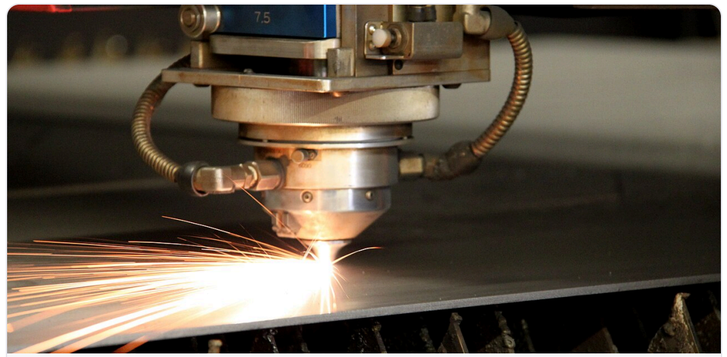

PRODUCT PORTFOLIO

Three cutting processes

Plasma

Wear parts for mechanised and hand-held plasma torches.

Laser

Wear parts for laser cutting heads.

Oxy-fuel

Cutting nozzles and torch parts for oxy-fuel cutting.

Our own IPF parts, plus OEM originals where a customer needs them.

QUALITY

Consistent from batch to batch

Made to our drawings

Many of our parts are made to our own drawings, and every supplier we use builds to them.

Checked on arrival

Deliveries are spot-checked when they arrive at our warehouse.

Under the microscope

Parts for plasma, laser and oxy-fuel cutting are inspected under a microscope.

SERVICE

Quick to answer, quick to ship

11:00

In-stock orders placed by 11:00 CET on a working day leave the same day.

3 hours

We reply to an enquiry within three business hours.

Stock

Held in the Czech Republic and abroad, closer to our customers.
